

Katch Fund Solutions – Real Estate Lending Fund

Share Class I : USD (Acc)

FUND PROFILE

The fund's main strategy is to provide short-term funding for UK real estate developers – also known as bridge lending – and development loans in areas where traditional lenders have retreated. The fund focuses on residential and commercial properties. It is a flexible source of funds for developers that allows them to seize and capitalize on lucrative deals. The loans typically come with strong protection, such as 1st lien charges on the property, corporate and/or personal guarantees. The fund targets high, stable returns with low volatilities, emphasizing on low duration, strong guarantees and regional diversification.

INVESTMENT OPPORTUNITY

The UK is facing a severe housing deficit, mainly because traditional banks have reduced their lending activity to developers in recent years. The structural undersupply makes the residential housing market relatively resilient to economic conditions. Despite the strong growth of alternative lenders, developers' access to capital remains scarce. Therefore, borrowers are willing to pay relatively high interest rates, even when providing strong collaterals, to get sufficient and dynamic funding for their projects. The UK is by far the largest and most dynamic market for real estate lending, thanks to a strong legal system that protects lenders with clear and established routes of enforcement in the event of a default on loan payments.

ABOUT KATCH INVESTMENT GROUP

Katch Investment Group is a dynamic asset management boutique offering innovative investment solutions in a constantly changing and challenging financial market environment. In the aftermath of the global financial crisis, major central banks' liquidity injections have inflated traditional asset classes, while new regulations reduced the banks' appetite and capability to lend to smaller businesses.

Laurent Jeanmart, CFA
Chairman

Katch identified these trends and decided to launch a fund that invests in real estate short-term lending and financing opportunities. An area where the capital supply is scarce that offers relatively high and stable returns for investors.

Pascal Rohner, CFA
CIO

The fund is registered in Luxembourg and partners with recognized financial institutions. It is managed by Stephane Prigent (Ex-Managing Director & Global Head of Equity Sales Research at State Street Capital), Laurent Jeanmart (Ex-head of Investment at Platinum Capital & Ex-CIO at Fidelis Insurance Holdings), and Pascal Rohner (Ex-CIO at Private Investment Management & Ex-Credit Suisse).

The fund targets a total return of 8% in USD, with a dividend of 6% for the distributing share class.

PORTFOLIO REVIEW

During the first quarter of 2021, we were able to further increase our loan book in term of size and geographical diversification. With 5 new loans written over this period, we managed to diversify further across the UK with exposure to Manchester, Liverpool and Yorkshire. Towards the end of March, we wrote our largest loan since inception: a development loan for GBP 13 millions. The drawdown will take place over a period of 15 months and we finance the conversion of an office into 100 new apartments with an average value of GBP 200,000. The demand is strong for housing below GBP 250,000 in Manchester and the supply is very limited.

The remaining 4 loans were split between residential and commercial bridging loans which helps keep our book spread across all property types.
